# Badry Sayed

Email: badrysayed88@email.com | GitHub: [github.com/badrysayed88](#)

## PROFILE

Flutter Developer specialized in building fast, scalable, and user-friendly mobile applications. Experienced with clean architecture, state management, and API integrations.

## SKILLS

Flutter & Dart	Bloc / Provider
REST APIs	Firebase
Clean Architecture	Git & GitHub

## PROJECT

### Smart Task Manager App

Description: A cross-platform mobile application designed to help users manage daily tasks efficiently with a clean and intuitive UI.

Features: Task creation, priority levels, reminders, dark mode, and real-time sync.

Technologies: Flutter, Firebase Authentication, Cloud Firestore, Bloc state management.

Impact: Improved productivity and task organization with smooth performance on Android and iOS.

## EXPERIENCE

Flutter Developer – Freelance

2024 – Present

- Built and deployed Flutter apps from scratch
- Integrated REST APIs and Firebase services
- Focused on performance optimization and clean code
